Preventive Medicine

Pain-Related Adult Medicine

Nicole Curl, PA-C

Nicole was born and raised in Manassas, Virginia. In 1995 she moved to Indiana to complete her college education and decided to call Indiana home. She married an Indiana native and currently resides in downtown Indianapolis.

Nicole has always wanted to dedicate her life to helping others so she pursued a degree in the medical field. She first obtained a degree in respiratory therapy but she believed that she could greater impact someone's life by furthering her education and becoming a Physician Assistant. She believes that pain management is the perfect fit for her. With this choice of profession she can help heal the mind and body, further promoting quality of life.

Currently, she and her husband are renovating a home built in 1908 in their spare time and love getting their hands dirty. She also enjoys spending time with their black lab and their cat.
